STATEMENT OF RELEVANCY

Reference AO (9-27127) on Form PTO-1449:

This reference is discussed in the specification.

The records are divided by the sector, and the track is further divided into a plurality of segments irrespective of the sectors. The publication does not disclose the double-layer recording or the idea of dividing the recording field.

Reference AP (9-106578) on Form PTO-1449:

The index mark is formed by varying the width of the groove so that the track is not broken. The recording field for the recording on the track is not broken by the index mark. This publication does not disclose the idea about the double-layer recording.
